RE: Branding change and website transition

Valued Lomas Customers,

Radiant / Wheels is excited to announce that they have acquired Lomas Logistics as of April 1, 2017. This acquisition brings core strengths in the areas of food, pharmaceutical and chemical logistics to the Wheels team.

These additional areas of expertise will come with the following certifications and licenses: AIB, HACCP, ISO, Organic certificates, DEL (Drug Establishment License), MDEL (Medical Devices Establishment License) and NHP (Natural Health Products License).

This acquisition will also add three additional warehouse locations to the Wheels portfolio. These include warehouses in Delta, BC, Dorval, QC and Mississauga, ON. As a part of Wheels, Lomas customers will now have access to the Radiant global network of transportation partners. Our combined size and strength will enhance your ability to access global markets, and our customized 3PL solutions will provide you with the advanced tools needed to improve your supply chain.

As a part of this acquisition, the Lomas Transportation brand will go away and will become Wheels, and over the coming weeks the Lomas website functionality will be transitioned to www.wheelsgroup.com.
